

Excellence. Every time.

Testing, Technical Communications, Staffing Support, Project Management,
and Consulting for the world's smartest companies.

Q | Innovative solutions. Powerful results.

Quardev provides a powerful suite of technical services that support you in completing your top priority: releasing great software. Experience our premier testing, technical communications, staffing support, project management, and consulting—backed by in-depth expertise and renowned five-star service. At Quardev, we strive to deliver on our brand promise every time: to employ the most innovative solutions at the best possible value.

“Flexibility has been a constant in our dealings with Quardev. Having a company like Quardev working with you makes you feel that you have an extension of your own company, bringing the expertise you need, when you need it most.”

— NETg

Challenges met. Problems solved.

To optimize your return on investment, we take care to balance your immediate requirements with your long-range objectives. Our approach is highly collaborative. Consider Quardev an extension of your company's internal team, offering specialized skills to enhance your efforts.

Software & Web Testing

Quardev is committed to the art and craft of testing. We use a range of methodologies and techniques to explore, identify, isolate, and document defects. Depending on the demands of your project, we can provide testing in our own secure, full-service laboratory or at your facility. To further meet your needs, we offer premier local, near-shore, and offshore testing.

Technical Communications

The more accurate and accessible your supporting documents, the more satisfied your end users. Our team is passionate about creating effective white papers, installation guides, online articles, electronic help systems, and more. Our services cover content development and design, technical writing and editing, document maintenance, and desktop publishing.

Staffing Support

Fluctuating staffing is a constant challenge for companies. To ensure you have the right people at the right time, take advantage of Quardev's staffing experts' proven screening methods and interview techniques. We'll send you the most qualified candidates for temporary and contract-to-hire staff placements, as well as outstanding candidates for your full-time, permanent positions.

“Working with Quardev was smooth sailing on a tough project that had extreme business importance to us. Professionals all, Quardev’s people were also fun to work with.”

— Radialpoint

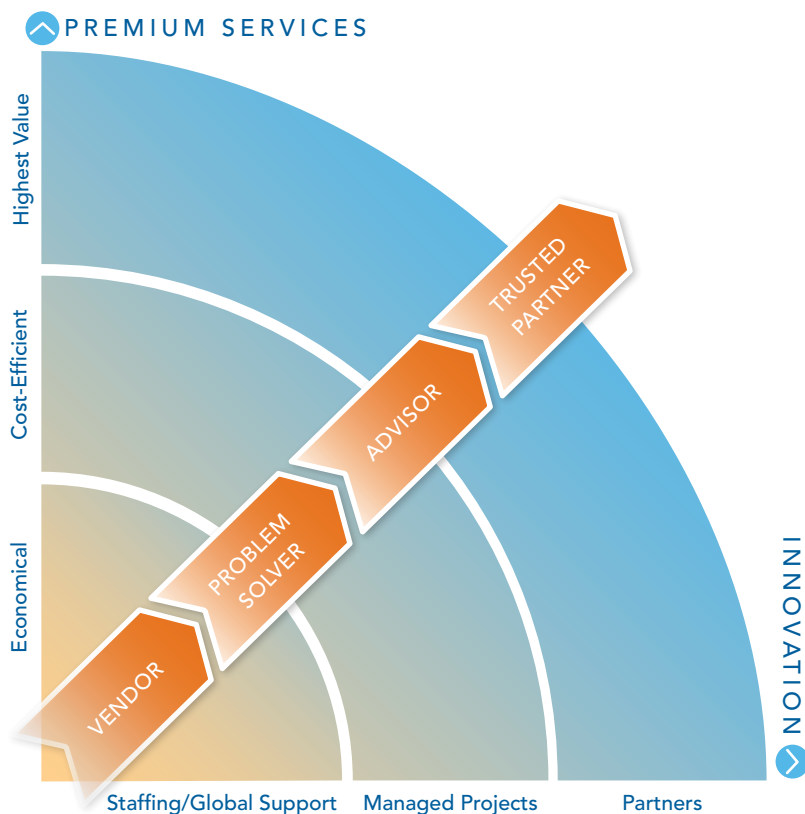

Project Management

To maximize the success of any project, it is critical to keep team members on track, stakeholders informed, and costs under control. Count on our experienced project managers to organize and lead each phase of your project, from scheduling to budgeting to reporting.

Consulting

Starting with a big-picture view of your project can prevent lost time and wasted budget. Our consultants partner with you to bring added focus to your goals and expectations. After analyzing your existing processes and resources, we create a roadmap for success and then help execute your plan.

What kind of relationship do you want with Quardev?

“What we liked about Quardev is that their staff went above and beyond in terms of thinking about the product. They tested it, of course, but they also gave us good usability and user interaction feedback that was thoughtful and helpful.”

— Oxford University Press

At Your Service.

The software industry is always evolving. So is Quardev. We continually analyze our processes and adapt our service offerings to meet the evolving needs of our clients. Whether your project requires specialized skills or a comprehensive solution, you can depend on our innovation, flexibility, and service.
